Q. 8: Case Study:

A private company is known for its efficiency, transparency and employee welfare. The company though owned by a private individual has a cooperative character where employees feel a sense of ownership. The company employs nearly 700 personnel and they have voluntarily decided not to form a union.

One day suddenly in the morning, about 40 men belonging to a political party gate-crashed into the factory demanding jobs in the factory. They threatened the management and employees, and also used foul language. The employees feel demoralized. It was clear that those people who gate-crashed wanted to be on the payroll of the company as well as continue as the volunteers/members of the party.

The company maintains high standards in integrity and does not extend favours to civil administration that also includes law enforcement agency. Such incidents occur in public sector also.

Q 8(A): Assume you are the CEO of the company. What would you do to diffuse the volatile situation on the date of gate-crashing with the violent mob sitting inside the company premises?

Q8(B): Explain the meaning and role of integrity in above case study. How integrity is different to Honesty?
