Q. 4: A) "I am the seer, doer, and enjoyer. The body is my instrument." - Explain

or

Q. 4: B) "Physical facilities are necessary and complete for animals, while they are necessary but not complete for humans." Comment.

SECTION - C

Read the case and answer the questions

07×02 = 14 Marks

Q. 5: Case Study:

Industrial chemicals are produced on a big scale by a conglomerate. It suggested establishing a second unit. Due to its negative impact on the environment, many states rejected this proposal. But one state government acceded to the request and permitted the unit close to a city, brushing aside all opposition. Further, the unit was set up 10 years ago and was in full swing till recently. The

pollution caused by the industrial effluents was affecting the land, water, and crops in the area. It was also causing serious health problems to human beings and animals. This gave rise to a series of agitations demanding the closure of the plant. In a recent agitation, thousands of people took part, creating a law-and-order problem necessitating stern police action. Following the public outcry, the State government ordered the closure of the factory. The closure of the factory resulted in the unemployment of not only those workers who were engaged in the factory but also those who were working in the ancillary units. It also very badly affected those industries which depended on the chemicals manufactured by it. You are a traffic constable and while on duty you see 3 people riding a motorcycle without a helmet and jumping the red signal. On stopping them, you came to know that one of them met with an accident due to potholes and is severely bleeding and due to the non-arrival of an ambulance they are taking him to the hospital. On further inquiry, you came to know that the driver does not have a driving license and works as a daily wager. While on his way to work, he found the man lying injured on the road, and in a rush to take him to hospital, he left his helmet on the site of an accident. The driver expresses his financial inability to pay increased fines. Recently, due to the enforcement of the new Motor Vehicles Act, you are under severe pressure from your seniors for strict enforcement.

Questions:

Q5(A): What are the ethical issues involved and the options available to you in such a situation?

Q5(B): As a senior officer entrusted with the responsibility of handling these issues, how are you going to address it?

Mapping of Questions with Course Learning Outcome

Question Number	COs	Bloom's taxonomy level	Marks Allocated
Q. 1:	CO1	L1	05 marks
Q. 2:	CO3	L2	07 marks
Q. 3:	CO4	L3	07 marks
Q. 4:	CO2	L1	07 marks
Q. 5:	CO5	L4	14 marks
